DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

Claims 1-14 is rejected under 112 2nd Paragraph because the means for clause refers to a supervisor control program in a supervisor control memory. A program is simply data and contains no physical structure capable of performing the corresponding transferring functionality required by the means for cause (in the case of the supervisor control program), therefore since the use of a means for clause (invoking 112 6th Paragraph) suggested to be in the actual supervisor control program, this is improper because a software program contains no corresponding structure to provide any type of transferring functionality (as opposed to the actual supervisor processor). See *Asyst Technologies Inc. v. Empak Inc.*, 60 USPQ2d 1567 (CA FC 2001).
